PHILIP EDWARD

Product Designer & AI-Native Developer

Nigeria (Remote) | edwardphill37@gmail.com

Portfolio: phil230.github.io/portfolio | GitHub: github.com/Phil230 | LinkedIn: linkedin.com/in/philip-edward-b07664406

PROFESSIONAL SUMMARY

UI/UX designer since 2023, expanding into software development and AI. Designs mobile and web products end to end and builds with Python, web development, APIs, Git and GitHub, and AI tools. Passionate about usability, accessibility, and data-driven decisions.

CORE SKILLS

UI/UX Design, Product Design, Wireframing, Prototyping, User Research, Interaction Design, Usability Testing, Responsive Design

TECHNICAL SKILLS

Python, Web Development, APIs, Git / GitHub, AI-assisted development, Prompt engineering

TOOLS

Figma, Framer, Notion, Google Workspace

EXPERIENCE

UI/UX Designer – New Vision Institute of Technology (2024–Present)
Designed wireframes and prototypes, conducted research, collaborated with developers, and improved usability.

Freelance UX Contributor (2023–Present)
Applied UX principles to improve engagement, designed user flows, and supported product launches.

SELECTED PROJECTS

Okada Ride-Hailing App (mobile app design)
Designed 18 screens covering sign-up, requesting a ride, agreeing a fare, tracking the trip, payment and rating.

Idoma Translator, idomaai.com (live product)
Designed the interface alone and built part of the live English to Idoma translator.

Budget Tracker App (mobile app design)
Designed a naira budget tracker with a dashboard, quick add sheet, monthly reports and settings.

AfroMetaverse (game UI/UX, in progress)
Sole UI/UX designer on a game project: landing page, city explorer, marketplace, wallet and profile.

EDUCATION

UI/UX Design Program – NVIT (2024)

Digital Marketing – ALX Africa (2023)

AVAILABILITY

Open to UI/UX and product design roles, and to product management, frontend, mobile or backend development roles (Remote / Contract / Full-time)
